

A large group of approximately 25 people, mostly young adults, are posing for a group photo in a room. They are arranged in several rows, some standing and some kneeling or sitting in the front. The room has a sign above a doorway that reads "THE BOARDROOM" and "A2.00 A2.01 A2.10". The image is overlaid with a semi-transparent blue filter.

Week 6
Documentation & Deployment 🚀

December 2, 2018

Final retrospective

This week

Documentation: why how what

Easy deployment step-by-step

A note on the importance of testing

Technical documentation (README)

- How do I run the application? (Prerequisite installs, installing the project)
 - How do I contribute to the project?
 - Which technology was used to build the application
 - Who is this project for, what problem does it solve?
 - Which license does the application use?
- > I should be able to get started with the project after cloning it by just reading the README

Non-technical documentation (for your client or end user)

- Add screenshots to demonstrate all of the functionality of your application
 - Who built the application, how can I contact them?
 - Where is the application hosted, what is their SLA?
 - Who's the point of contact when things go wrong?
- > If your users contact you with questions about basic functionality of your application, your documentation is likely lacking

Hosting & Deployment

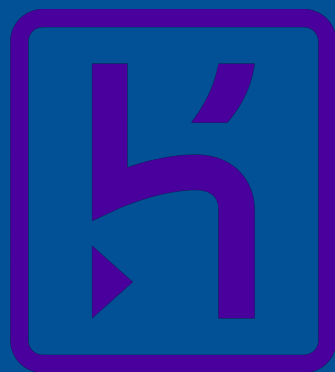

Types of hosting

netlify
